

Expedited Excellence: Increase Your Efficiency & Predictability with Direct Restorations

Saturday, October 12, 2024
8:00 am - 5:00 pm

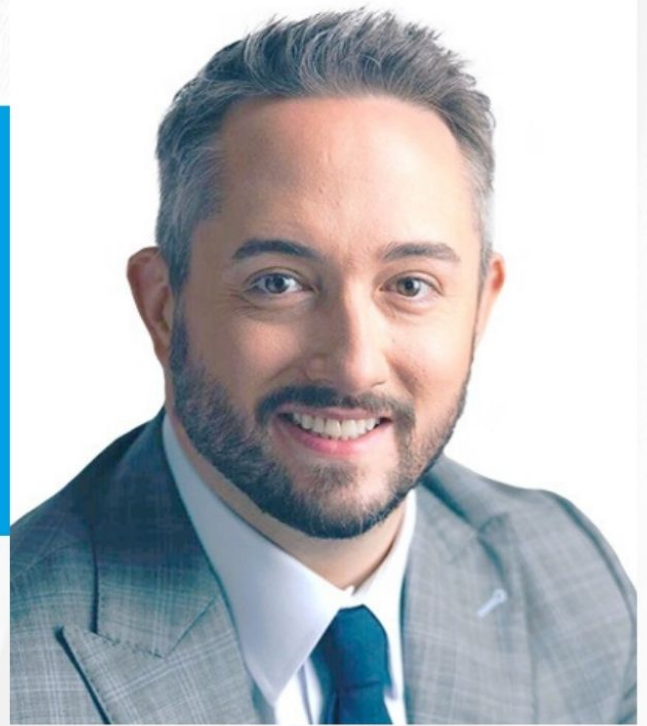

DESCRIPTION

As editorial director with Dental Economics magazine, Dr. Joshua Austin authors the column Pearls for Your Practice and has personally worked with most new products and technologies that have entered the market. In this interactive, fast-moving course, Joshua shares the current trends in dental materials and technologies. Learn how materials have changed over the past few years and how those changes can affect your procedures and practice.

Practice costs grow year by year; however, reimbursement rates stay flat. In order to remain as profitable, we face only one option....to increase our efficiency. Working smarter and faster is the only way. This course will help clinicians stay fast and efficient at the most common restorative procedures. Attendees will participate in all steps of different posterior restorations using bulk-fill composite with correct curing light procedures and several different techniques.

OBJECTIVES

- Identify growing trends and discover the best new products and innovations on the market
- Understand the impact new products/technologies have on the practice's bottom line
- Gain a formula for assessing time savings vs financial output in your purchasing decisions
- Identify appropriate etching techniques
- Learn to make your life easier and your dentistry faster
- Explore the advantages of using bulk fill posterior composite
- Discuss and perform several placement techniques for bulk fill posterior composites
- that will save time and increase predictability
- Review quick and effective polishing techniques for posterior restorations
- Examine different matrix systems and their best uses
- Learn techniques for performing two adjacent class II lesions efficiently
- Review universal bonding agents and their best uses in restorative dentistry
