LECTURE

SEPTEMBER 27, 2024

(8 hrs. AGD Operative/Esthetics Lecture Credit)

MASTERING ADHESION, ANTERIOR AND POSTERIOR RESIN COMPOSITES: A PRACTICAL APPROACH

Are you tired of lackluster results with your resin composite restorations? Do you want to leave your patients truly impressed? Look no further. This clinically oriented presentation equips you with the essential tools for achieving outstanding anterior and posterior resin composites. Get ready to wow your patients with great results. This dynamic course delves into the art and science of adhesion, anterior and posterior resin composites. This step-by-step approach covers everything you need to know, from shade selection to final polish, as well as predictably achieve proximal contacts in posterior restorations. Whether you're a seasoned practitioner or just starting out, this course will elevate your skills and boost your clinical success.

Key Learning Objectives

1. **Adhesion:** Learn to obtain the best possible bond and predictably leave your patients with sensitive free restorations and utilize the best Universal adhesive protocol.
2. **Shade Selection Mastery:** Learn how to choose the best shade for seamless integration with natural dentition.
3. **Layering style:** Recognize when to layer, when to use monochromatic or single-shade composites.
4. **Cavity Preparation for Esthetics:** Discover precise cavity design principles that enhance both form and function. Say goodbye to guesswork and hello to predictable outcomes.
5. **Material Placement Techniques:** Dive into the latest advancements in composite materials. From layering to bulk fill, we'll demystify the process and empower you to create durable, beautiful restorations.
6. **Contouring and Polishing Perfection:** Transform ordinary restorations into works of art. Explore contouring strategies that mimic natural tooth anatomy and master the art of high-gloss polishing.

HANDS-ON TRAINING

SATURDAY SEPTEMBER 28, 2024

Saturday will be an extension of the Friday lecture.

Format: Participants engage in practical exercises for composite restorations. A live step-by-step demonstration for each exercise will be done, following by the participants doing their own restorations.

The following exercises will be done:

- Exercise 1:** Resin veneer. Participants will have the chance to learn preparation, placement, contouring and polishing of direct resin veneers.
- Exercise 2:** Anterior cut back technique to obtain 1) Multi-color, multi-opacity anterior restorations. 2) Halo and translucency when necessary.
- Exercise 3:** Posterior composites. Master proper placement techniques, materials, band, wedges and rings ensuring good anatomy and proximal contacts.

If you attend the entire 2 day course, you will receive 16 hrs. AGD Operative (subject code 250) or Esthetics (subject code 780). Additional 16 hours of participation credit may be earned by presenting a clinical homework assignment after the course and presenting in March of 2024. There is an additional fee of \$500 if you are not in the IAGD Masterack).

We now offer a 25% discount on any lecture, weekend MT or the entire MT class for a new grad/young dentist (each CE offered), up to their 5th year out. (i.e., dental student graduated in 2023, their 1st year out would be 2024. They would get this discount for 2024-2028.) If you graduated in 2019 and after, this discount would apply! (Must be an AGD member)
